

## FLEX REEL

Weight capacity: 600 lbs.

### BENEFITS

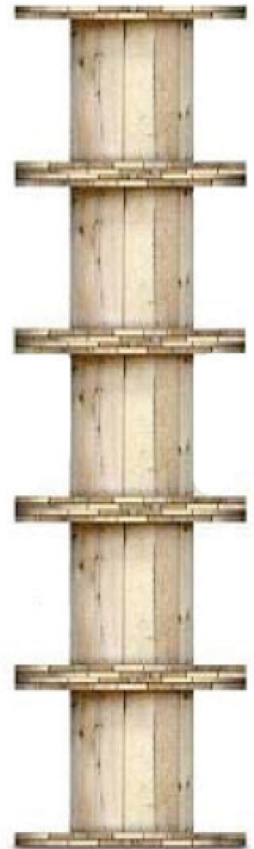

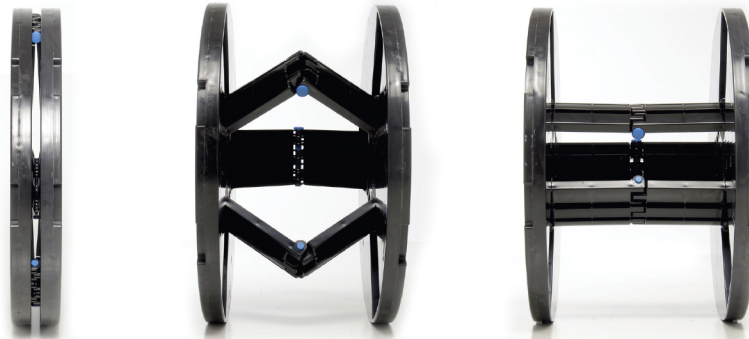

#### REDUCE COSTS

- Inventory of wooden reels
- Disposal fees
- Material handling
- Freight and storage fees

#### SAVE SPACE

- Better utilization of warehouse space.
- Eliminate outdoor storage.
- No stacking of bulky wooden reels.
- Easily stack on skids.

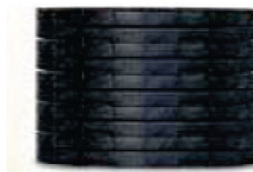

Evolution's Flex Reel solves the stressing issue related to disposing bulky, wooden reels. The unique collapsible design assures fast breakdown for shipping and storage. With an easy two-step movement, customers can collapse and return reels back to the manufacture to be used over again.
